

**McCLOUD COMMUNITY SERVICES DISTRICT**  
**Policy and Procedure Manual**

**Policy Title:** Sanitary Sewer System Management Plan (SSMP)  
**Policy Number:** 3400  
**Adopted:** May 23, 2011  
**Reviewed:** December 18, 2013, November 1, 2018  
**Amended:** November 26, 2018

**3400.10** On May 2, 2006 the State Water Resources Control Board adopted a Statewide General Waste Discharge Requirements (WDRs) for Sanitary Sewer Systems, Water Quality Order No. 2006-0003. This order requires public agencies that own or operate sanitary sewer systems to develop and implement sewer system management plans. Among other requirements, this plan must include specific programs related to the maintenance of sewer systems as well as the handling of sewer system overflows.

**3400.20** According to the WDR, the SSMP must be approved by the MCSD Board of Directors. It must also be reviewed at least every five years, with all major revisions included and approved by the MCSD Board. Failure to perform this function constitutes a violation of the California Water Code and is grounds for enforcement action.

**3400.30** The SSMP will initially be maintained as Policy 3401.
